**Gairdner Industry
Breakfast (MaRS)**

Thursday, October 29, 2009
7:15-9:00 a.m.

As part of our 50th Anniversary celebrations the Gairdner Foundation, in partnership with the Government of Ontario, is hosting an industry breakfast. This event will be of interest to those in biotech and pharma industries, government, venture capitalists, researchers, graduate students and postdocs.

Unclogging the Pipeline: Rejuvenating drug discovery

The drug pipeline is drying up. We need new approaches and new models for developing the drugs of the future. Cal Stiller will moderate a lively discussion with Corey Goodman (Gairdner '98), Phillip Sharp (Gairdner '74, Nobel '93) and David Baltimore (Gairdner '74, Nobel '75) on how to move from research to innovation. There will be ample time for a Q&A. The event is free, but registration is required at thegairdner@gairdner.org
